Report of Truant Officer.

In enumerating the children between the ages of five and sixteen, I found there were 151, viz: sixty-six boys and eighty-five girls.

In regard to Truants, I was called upon by the School Board five different times. In the first case the Truant attended school as long as he stopped in town. In the second case the Truant secured a place offering him the privilege of attending school in another town and he accepted. The third case Truant's parents produced a certificate signed by a physician, thus excusing her from school on account of ill health. In the other two cases the Truants attended school without further trouble.

IDA A. YOUNG, Truant Officer.

Note by the Printer.

The Auditor's certificate to the Road Agent's report was crowded off page 19, and we insert it here instead of devoting a whole page to it immediately following that report.

This certifies that I have examined the account of the Road Agent and find it correctly cast and properly vouched.
